

ARUN JOJO

AI CERTIFIED | FULL-STACK | SOFTWARE ENGINEER

linkedin.com/arunkjojo | github.com/arunkjojo | arunkjojo.vercel.app | arunkjojo@gmail.com | +919400247717

SUMMARY

AI Certified Full-Stack Software Engineer with 5+ years of experience building scalable web applications using Next.js, React, Node.js, and TypeScript. I help teams ship faster by architecting CI/CD pipelines and optimizing real-time systems that handle 10,000+ events/second. Reduced rendering bottlenecks by 30% through SSR/ISR strategies and accelerated delivery cycles by 40% using AI-augmented development.

EXPERIENCE

Gesher Technologies – Software Engineer | Ernakulam

May 2026 – Present

- Architecting full-stack solutions using Next.js and Supabase PostgreSQL, focusing on high concurrency and modular backend design for scalability. Optimized backend infrastructure via AI driven development.
- Implementing modern DevOps strategies, including automated CI/CD pipelines via GitHub Actions and containerization with Docker for seamless cloud scaling. Architected a deployment pipeline using GitHub Actions, ensuring zero-downtime frontend releases, increasing release frequency by 20%, and reducing manual intervention by 15% for a production-scale project.
- Consulting on frontend performance, implementing advanced caching strategies, and SSR optimization to improve SEO and user retention. Implemented complex state management architectures using React, TypeScript, and Redux-Saga, ensuring type safety and reducing client-side rendering bottlenecks by 30%.

BCT Consulting – Senior Developer | Thiruvandapuram

Jun 2024 – Aug 2025

- Implemented state management using React/Redux-Saga, specifically focusing on optimizing data handling that influenced application performance and stability in production environments.
- Collaborated with the File Management Team to streamline document workflow processes, applying principles of efficiency and system integration. Resulting in a 25% measurable increase in team development efficiency through AI-augmented development practices and GitHub Copilot.
- Contributed to the deployment of the Ksmart and Ksuite web applications, ensuring functional accessibility and system stability across diverse user groups.

Inlux Intelligence – Full-Stack Developer | Kasaragod

Oct 2022 – Jun 2024

- Optimized backend systems (PHP/Node.js-Express.js) for improved server response times and system reliability, focusing on system performance tuning.
- Used Git & GitHub for rigorous version control, collaborative code reviews, and managing multiple application branches to ensure continuous code quality for deployment.
- Developed scalable applications and designed relational/NoSQL database schemas leveraging PostgreSQL, MSSQL, and MongoDB, improving complex query execution speeds by 40%.

- Built and deployed a Progressive Web App (PWA) and Trusted Web Activity (TWA) using React.js and React Native, achieving a 40% increase in mobile user retention, involving knowledge of application delivery and publishing processes.
- Managed real-time applications (Voice Translation App) and E-commerce platforms, requiring a focus on high availability and performance monitoring.

Inlux Intelligence – React-PHP Developer | Kasaragod

Jan 2020 – Mar 2022

- Engineered and deployed high-performance web applications using React.js, PHP APIs, and MySQL, successfully publishing PWA/TWA projects to the Google Play Store.
- Managed the complete lifecycle from front-end UI design to Firebase deployment, leveraging freelance experience to deliver scalable, user-centric solutions.

SKILLS

Frontend: React.js, Next.js, TypeScript, Redux Toolkit, Tailwind CSS, PWA Service Worker

Backend & APIs: Node.js-Express.js, PHP, ASP.NET Core Web API, RESTful APIs, WebSockets

Databases: PostgreSQL, MySQL, MongoDB, Firestore, Supabase

DevOps & CI/CD: GitHub Actions, Zero-Downtime Release

Testing: Vitest/Jest, Unit & Functional

AI & Tooling: GitHub Copilot, Anthropic Claude, Antigravity

Soft Skills: Communication & Collaboration, Problem-Solving & Critical Thinking, Adaptability & Continuous Learning, Time Management & Prioritization, Accountability & Ownership, and Attention to Detail.

EDUCATION

Bachelor of Science in Computer Science | Kasaragod

Jul 2018 – Mar 2021

- Bachelor of Science in Computer Science (3yr) from IHRD Manjeshwar
- Achievements: Won the Best Coder of the ZEITGEIST

CERTIFICATIONS

- Anthropic Claude Code in Action, Claude 101 and Claude Code 101
- Anthropic Claude MCP & Cowork
- Claude Agent Skill, Subagents
- Back-End Development with .NET
- Vibe Coding with Claude Code
- KodeKloud DevOps Engineer – Professional (In Progress)
- CI/CD DevOps with GitHub
- GitHub Copilot
- ASP.NET Core 9 Web API
- React Testing with Vitest, Jest, and React Testing Library (RTL)
- React & Redux
